

The background is a solid light pink color. It is decorated with several areas of gold glitter, primarily in the corners and along the sides. There are also large, soft pink brushstrokes in the corners, some of which contain small red dots. The word "HELLO" is written in a dark pink, cursive script in the center of the image.

HELLO

A. General Transmission

Abiotic environmental factors

- Wind
- Water
- Inhalation of spores
- Entry into skin

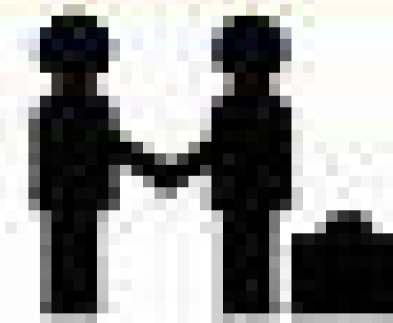

Animal vectors

- Mosquitoes (malaria, dengue)
- Fleas (bubonic plague)

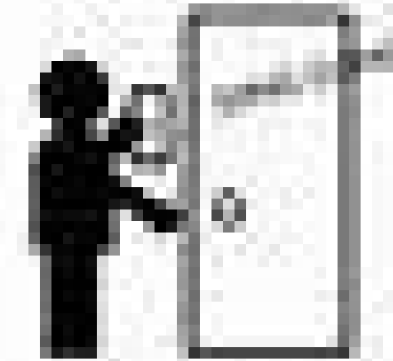

B. Human to Human Transmission

Direct Contact

- Pathogen survives best inside the host
- Eg: HIV, Herpesvirus, Ebola

Indirect Contact

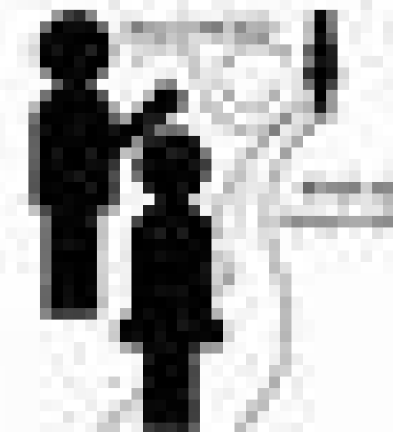

- Pathogen survives fairly long periods
- Pick up pathogen from surface of host
- Eg: Influenza, norovirus

Droplets

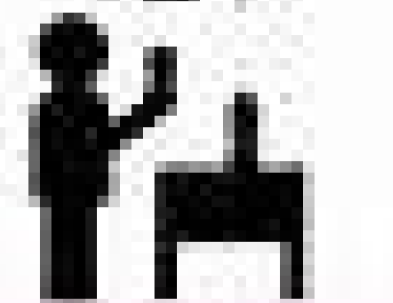

- Pathogens are in droplets, but don't survive long this way
- Eg: Ebola, *Bordetella pertussis*

Airborne

- Pathogens aerosolized and stay infective
- Eg: Influenza, Tuberculosis

Fecal-Oral

- Through contaminated water or food
- Eg: Cholera, Norovirus, Shigella

Citizens don't have:

1. Access to all medical records
2. Information about doctors, hospitals and labs
3. Knowledge about qualification of doctor
4. Choice to consult doctors remotely

Hospitals/ Labs/ Doctors don't have:

1. Access to patient's medical history
2. Ability to ensure follow up after treatment
3. Feature to remotely consult patients
4. Ease of doing business

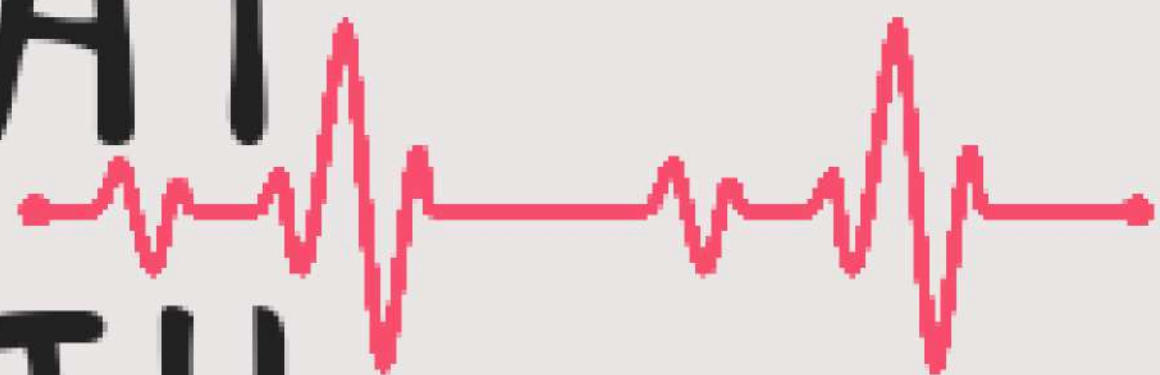

Policy-makers and program managers don't have:

1. Sufficient information about what kind of diseases are coming up that can be prevented
2. Complete monitoring and control in unified manner

BHARAT

HEALTH

Vision

To create an Inclusive, Accessible, Affordable and Efficient Digital Health Infrastructure across the Country in a Safe and Time bound manner.

Inclusive

Accessible

Affordable

Efficient

Safe

Timely

Mission

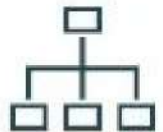

To create Digital Platform for evolving Health Ecosystem through wide-range of data, information and infrastructure services while ensuring security, confidentiality and privacy.

Technology

Single source of truth: Data is validated by authorized entities.

Federated architecture: No central storage of data.

Open API and Interoperability: Any compliant Health Care entity can integrate.

Standard frameworks: Widely accepted industry standard can be used.

Policy

Privacy & Security by design: Consent based information exchange

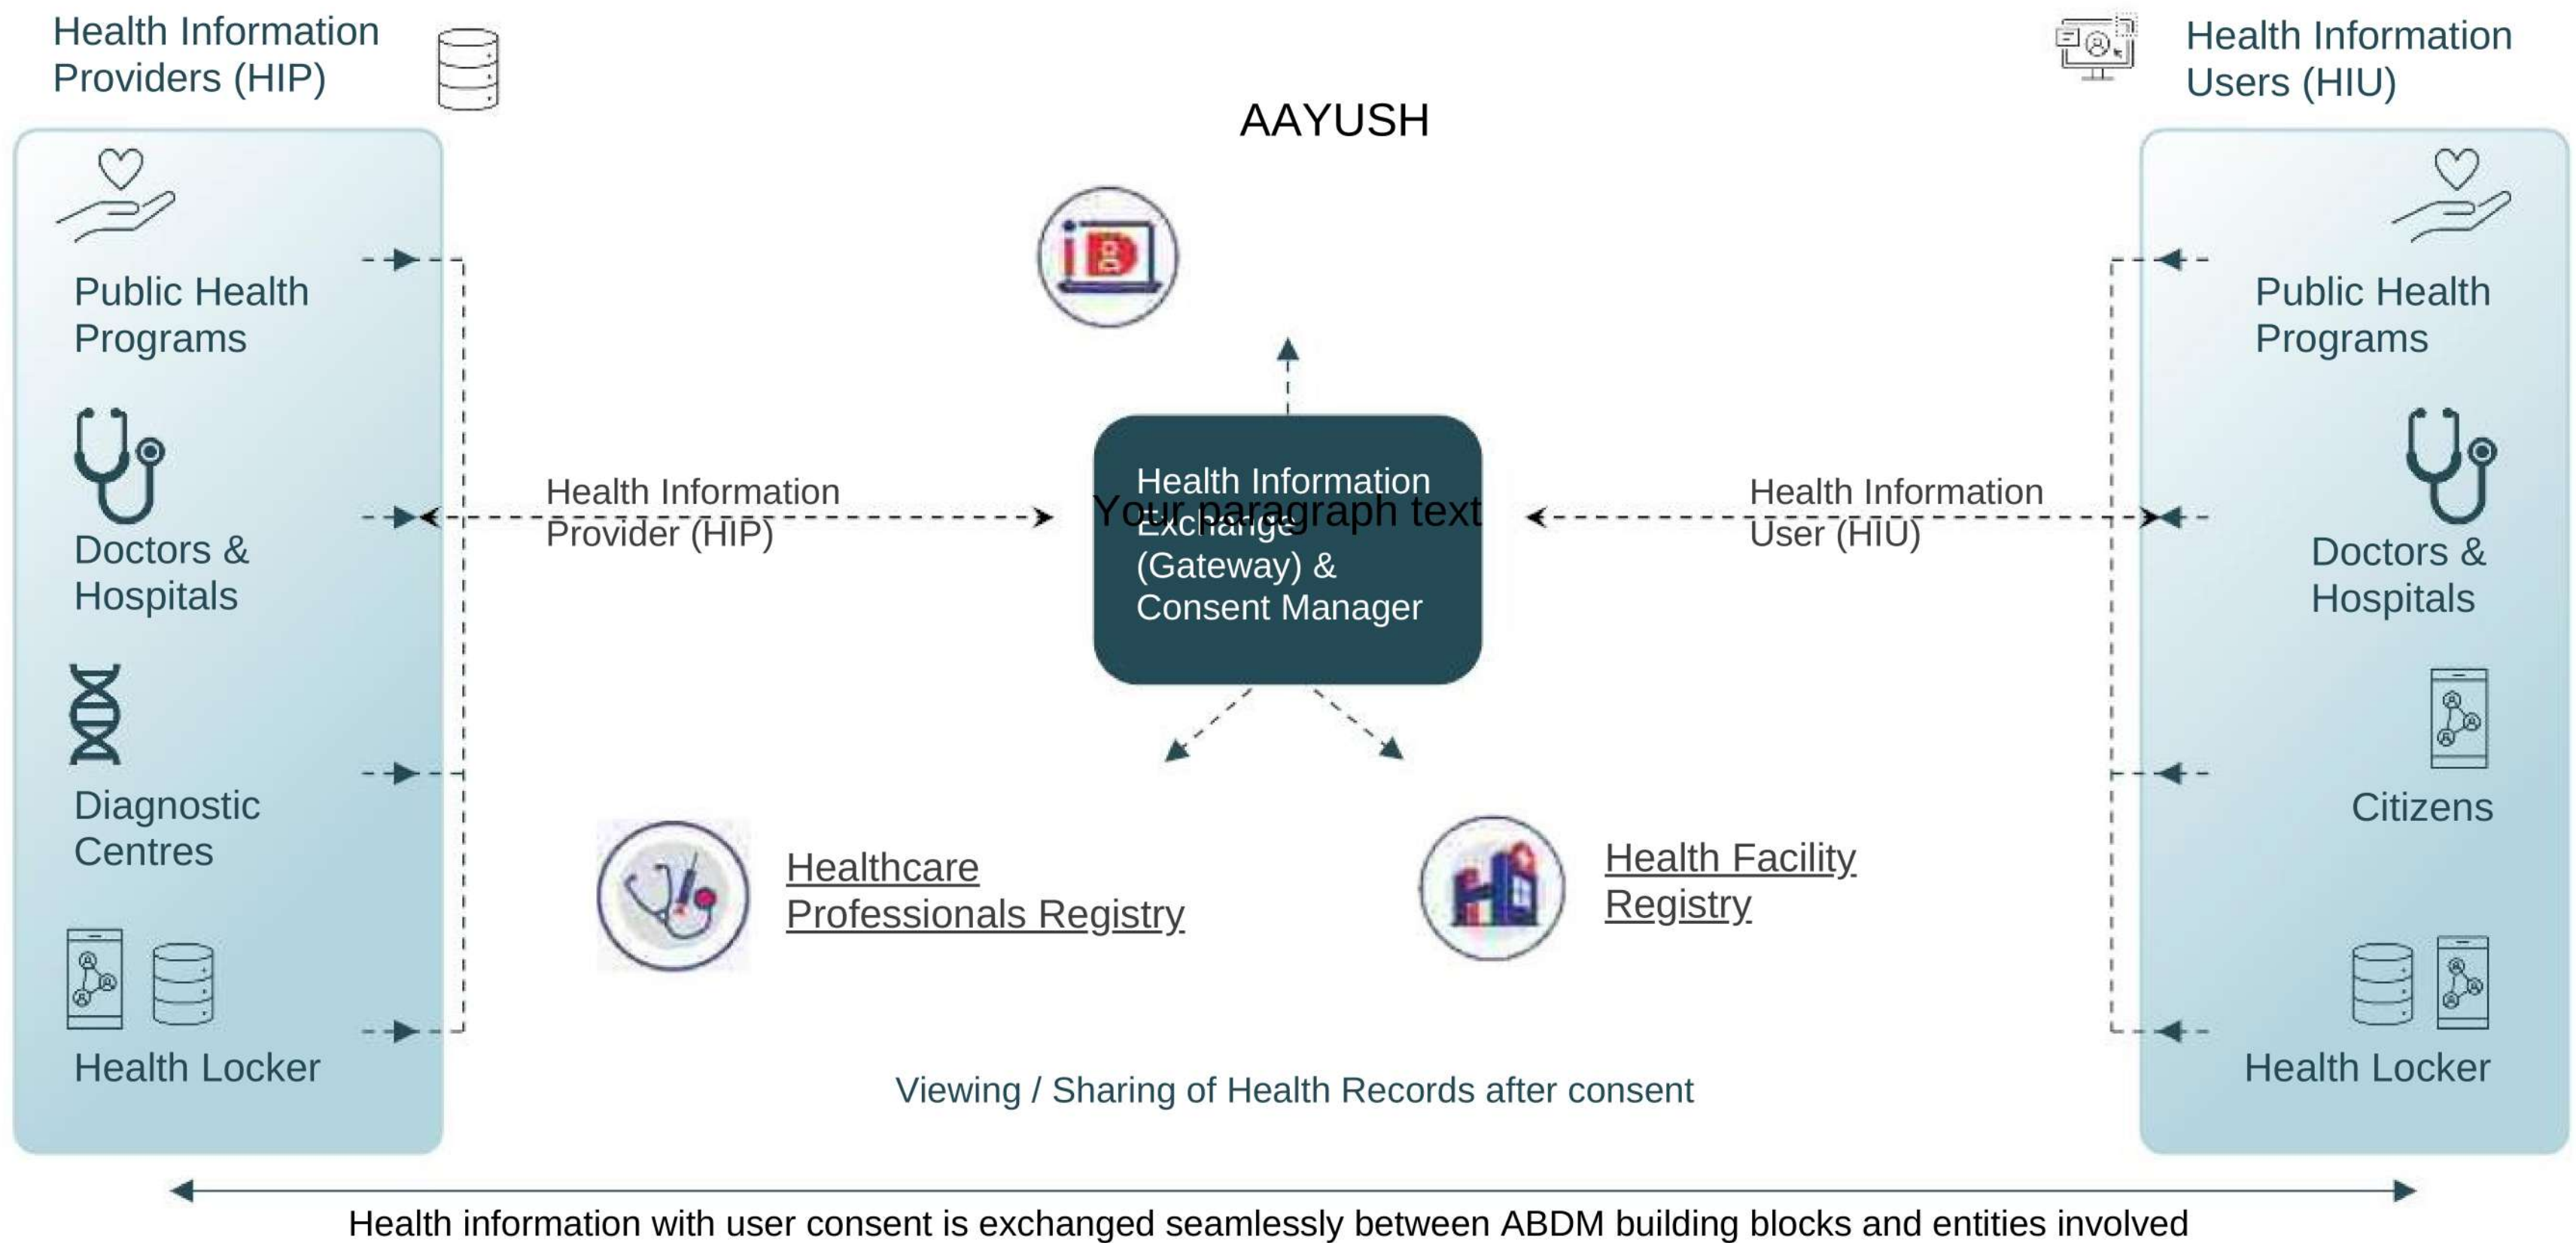

User inclusivity: All Indian citizens can participate

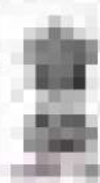

Voluntary participation: End-users have option to opt-out of ecosystem at any point of time

Wellness Centric: It will enhance efficiency of Health Care system by providing access to real-time Health Care records
